· Asia (4);

· Australasia (2); and

Europe (14).

A National Antarctic Program is the organisation with national responsibility for managing the support of scientific research in the Antarctic Treaty Area, on behalf of its government and in the spirit of the

COMNAP membership is open to the Programs of nations that have signed the Antarctic Treaty and ratified its Protocol on Environmental Protection.

Supporting Science in Antarctica

COMNAP's purpose is:

To develop and promote best practice in managing the support of scientific research in the Antarctic by

- \cdot Serving as a forum to develop practices that improve effectiveness of activities in an environmentally
- · Facilitating and promoting international partnerships;
- · Providing opportunities and systems for information exchange; and
- · Providing the Antarctic Treaty System with objective and practical, technical and non-political advice drawn from the National Antarctic Programs' pool of expertise.

COMNAP maintains a close relationship with the Scientific Committee on Antarctic Research (SCAR)

Supporting the Antarctic Treaty System

COMNAP has the status of Observer at Antarctic Treaty Consultative Meetings (ATCMs) and at meetings of the Treaty's Committee for Environmental Protection (CEP).

It remains committed to serve its role by providing objective and practical, technical and non-political advice drawn from the National Antarctic Programs' pool of expertise.

COMNAP has progressively assumed a number of practical tasks and functions previously $undertaken\ by\ the\ Treaty\ Parties\ directly\ or\ by\ other\ organisations.\ In\ particular,\ COMNAP\ maintains$ a range of information of practical use to many in the Antarctic Treaty System, and which include and go beyond a range of information that Parties are required to exchange under the Treaty.
